

MARKETING SUPPORT

As your partner in education, we understand that our curriculum not only benefits students' education and growth, it also supports parent-child relationships through family engagement and classroom teachers through professional development. This enhances your schools' ability to increase enrollment. To assist with community outreach and marketing efforts, we offer a range of materials and services designed to let prospective families know that your schools now offer Music Together.

- Printed materials detailing the Music Together curriculum
- Listing on Music Together's online class locator
- Professional marketing support and planning for targeted local or national campaigns
- Information and support designed to help staff effectively promote the program

In Closing

Music can do amazing things for a child, for a family, for a community. It is our sincere belief that when incorporated into the immersive school environment, our program will achieve something greater than the sum of its parts. Because we also recognize that education is your business, we intend to make every effort to have a positive impact on your enrollment efforts. We offer a proven, winning combination of committed people and amazing program, and we'd like nothing more than to put it to work for you.

Thank you for this opportunity.

Sincerely,

The staff of Music Together, LLC and
Music Together Learn and Grow
